What is *Mathematics STAAR® Workstations Volume 1*?

Mathematics STAAR® Workstations Volume 1 is a student-centered review resource to be used to address the Mathematics TEKS that, based on current data, have proven challenging for students. Each Workstation is TEKS-based and may be used to enrich Tier I instruction or as a review at the rigor outlined by the TEKS.

Each review Workstation is designed to take 15-20 minutes and fit in a single file folder to create a convenient and engaging review resource. These workstations may be used in a variety of structures, including differentiated review during class, review sessions, and tutorials.

Using *Mathematics STAAR® Workstations Folders*

A folder format provides flexible options for review. The following are examples of ways to use the folders:

- Individualized Review: Students complete workstations that target their area(s) of greatest need based on formative assessment data.
- Review Stations: Student groups work through each folder and note any topics they find confusing or for which they need further review. The teacher monitors student discussions to assess for misconceptions. These points for review can be addressed individually or as a class to make the best use of class time.
- Whole Class Review: During one class period, the class works in small groups through the same review Workstation folder(s) and debriefs together.

Creating *Mathematics STAAR® Workstations Folders*

To create the review workstations in this resource, you will need the following materials:

- Access to a copy machine and/or printer
- Cardstock
- Envelopes and resealable plastic bags
- File folders, preferably a different color for each Reporting Category
- Packing tape
- Glue sticks
- Hook-and-loop dots

Follow these steps to create each *Mathematics STAAR® Workstations* folder:

1. Read through the Teacher Notes and gather the materials for the Workstation.
2. Print the Labels, Instructions, Task Cards, and Student Answer Keys. You may access the digital files and choose to print in color or black and white. Access digital files at <http://r4hub.esc4.net> using your login information.
3. Cut out the Labels, Instructions, Task Cards, and Student Answer Keys, and attach each to the folder. You may choose to follow the sample layout provided in the Teacher Notes or organize the folder in a way that meets the needs of your students.
4. Print copies of the student pages. These are designed to be consumables for students to use as a study guide.

What is *Mathematics STAAR® Workstations Volume 1*?

Answer Keys

Answer keys are included with each Workstation. The answer keys may be used in one of the following ways:

- Place the answer key on the back cover of the folder under a flap for students to self-check as they complete the Workstation.
- Place the answer key inside the folder in a pocket or under a flap for students to self-check as they complete the Workstation.
- Plan for students to visit a solution station with a labeled answer key for each Workstation.

Debriefing and Providing Feedback

Depending on how the folders are used, the teacher may choose a variety of strategies to provide feedback:

- Use Key Questions and the practice assessment item to debrief the Workstation. Students who are unable to accurately answer these questions following completion of the Workstation's activity may need additional support.
- Students complete each Workstation and use the answer key or visit the solution station to check their answers. Students should note any questions about a concept or skill so that their questions can be addressed by their teacher.

Mathematics STAAR® Workstations Volume 1 Features

Using Data From Simple Experiments

TEKS 7(6)(H)
Reporting Category 1
Probability and Numerical Representations

Each activity addresses a specific student expectation that is reflected in the content objective(s).

Materials For the folder

- Workstation document
- Red folder
- Red cardstock
- Additional cardstock for activities
- Hook-and-loop dot
- Plastic sandwich bag
- Packing tape

Materials listed aid in activity preparation.

A different color folder is used for each reporting category to aid in organization. Manila folders may also be used.

1. Print the workstation document.
2. Cut out, arrange, and glue the *Cover* and the *Content Objective, Language Objective, and Key Questions* to the front of the folder.
3. Cut out and glue the *Folder Tab Label* to the tab of the folder.

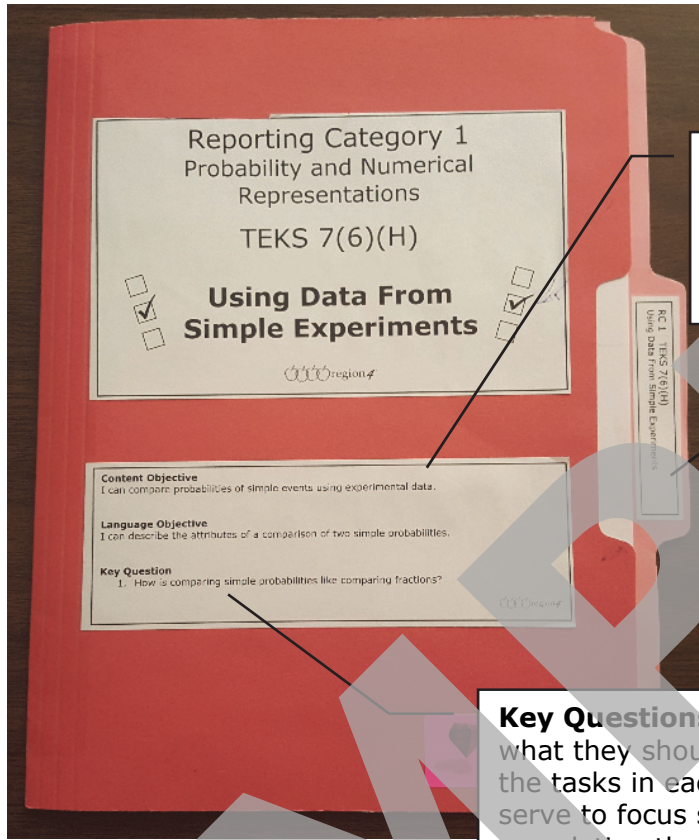

The titles of **Activity Masters** and **Student Pages** are printed in italics for ease of reference.

Reporting Category Folder Color Recommendations

- Reporting Category 1: Red Folders
- Reporting Category 2: Yellow Folders
- Reporting Category 3: Green Folders
- Reporting Category 4: Blue Folders

Mathematics STAAR® Workstations Volume 1 Features

Front Cover

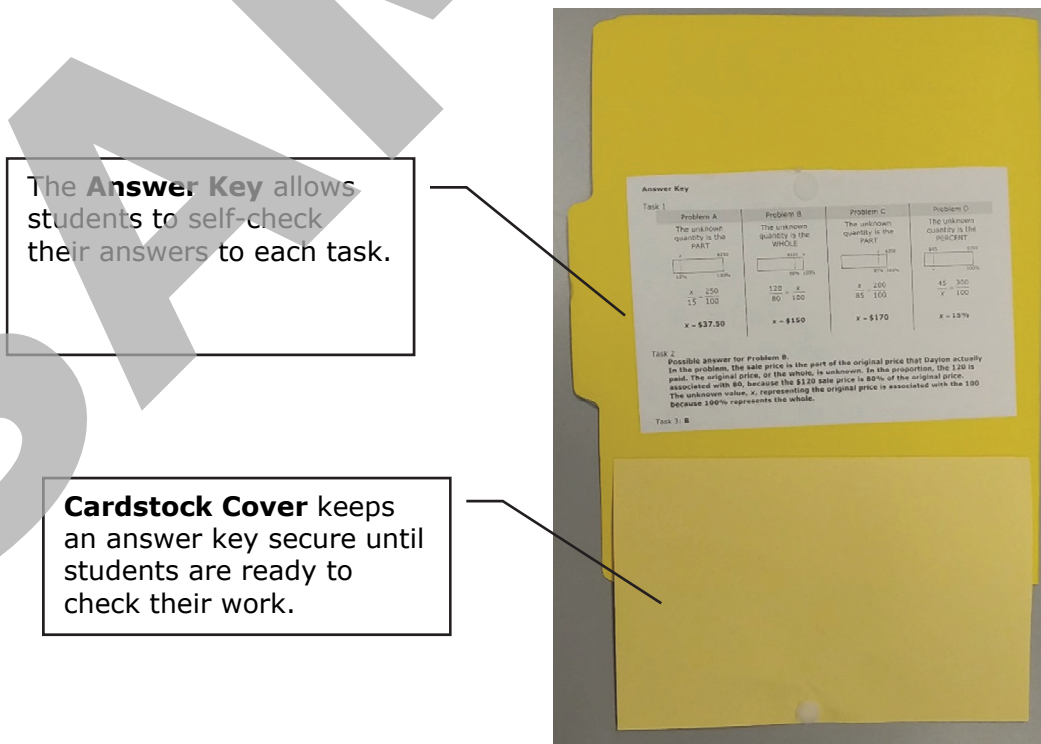

Language Objective and Content Objective describe the focus of the TEKS-based activity in student-friendly language.

Folder Tab Labels are provided to aid in organization of folders.

Key Questions help students focus on what they should know after completing the tasks in each activity folder. They also serve to focus student discourse while completing the tasks.

Back Cover

The **Answer Key** allows students to self-check their answers to each task.

Cardstock Cover keeps an answer key secure until students are ready to check their work.

Mathematics STAAR® Workstations Volume 1 Features

Inside Folder

Each Workstation includes step-by-step instructions to aid students in completing each task.

Some workstations include card sorts or have other manipulatives. Cards are stored in the folder either in a pocket (created using cardstock or an envelope) or in a resealable plastic bag.

A STAAR® -formatted assessment item is included in each station.

Each Workstation includes a literacy component to promote understanding and academic vocabulary.

Varied border designs are used to distinguish tasks.

Each Workstation includes a reproducible master that provides students with a study guide.
